I have a BS 5hp model 135202 tiller and it runs fine with complete choke, but when backing off the choke it will die... I have taken complete carb apart and cleaned it thoroughly and installed new diaphragm, dumped out old gas, and filled with new, and still will not run when choke is opene...

5hp Briggs and Stratton will not keep running ...
Hi everybody im new to the site. I own a 1980 s argo 6x6 with a 16 hp briggs and stratton engine in it. I want to swap this engine to a 700 rotax but im wondering if this is too big of an engine for the running gear or if the 700 will overheat because it is air cooled? Any input at all will greatly be appreciated , thanks everyone!
