A Companion to the Archaeology of Early Greece and the—

1 June 2020. The Companion offers an original and inclusive review of two periods in Greek Archaeology, which are typically treated separately – the Late Bronze Age and the Early Iron Age. It presents in-depth exploration of the society and the material culture of Greece and the Mediterranean, from the 14th to the early 7th centuries BC. This two-volumes reference sets Aegean developments within their broader geographic and cultural context, and presents the wide-ranging interactions with ...

" To that end, the companion may be regarded as a successful contribution for students of Near Eastern archaeology, offering a copious amount of good quality material in two volumes that presents current state of knowledge about Near Eastern cultures from early prehistory to late antiquity. "

A Companion to the Archaeology of the Ancient Near East—

A Companion to the Archaeology of Religion in the Ancient World presents a comprehensive overview of a wide range of topics and archaeological materials relating to the practices, expressions, and interactions of religion in antiquity. Chapters are primarily focused on "lived religion"—religious experience rather than belief—in the Greco-Roman world, and take their point of departure in concepts, aspect, and empirical material relating to central themes within the archaeology of religion.

A Companion to the Archaeology of Religion in the Ancient—

The companion bridges the gap that typically exists between Prehistoric and Classical Archaeology and examines material culture and social practice across Greece and the Mediterranean. A number of specialists examine the environment and demography, and analyze a range of textual and archaeological evidence to shed light on socio-political and cultural developments.
