The Practice Exam for the Principle and Practice of Engineering (PE) - Naval Architecture is written by a professional naval architect with over 15 years experience in providing engineering support to offshore oil, maritime construction, shipyard maintenance and repair, and military projects. The author took the most recently proctored exam (2013) and offers this practice exam as a demonstration for the level of difficulty that will be encountered by future candidates on exam day. This exam is formatted to look like and feel like the NCEES exam; with a distribution of questions across the breadth of engineering topics tested that emulates the distribution presented by the NCEES exam. Answers for all 80 questions are included with explanations.

CompTIA Linux+ Certification Study Guide offers a practical guide for those interested in pursuing a Linux+ certification. It covers the required content as specified in CompTIA's exam objectives and has been shaped according to the respective exam experiences of the authors. Careful attention has been paid to ensure that each exam objective has been covered and that each term in the list at the end of the objectives has been included in a glossary at the end of the book. The book has been designed in such a way that readers will start with installing Linux and end up with a useable and secure Linux workstation and server that is supported and managed. Key topics discussed include booting Linux; how to use the BASH command-line interpreter (CLI) or BASH shell; and how to install applications to transform the Linux system into a productive tool. The remaining chapters cover the configuration of Linux as a workstation and as a server; security objectives; and the care and feeding of a Linux system. Each chapter ends with 15 exam questions along with a corresponding answer key. Covers everything from test taking techniques to advanced topics - keeping the beginner and intermediate IT professional in mind. Layout of the guide parallels the 2009 Linux+ objectives for ease of study. More than just a book, this
