Click on any column to order the list of standards. Use the yellow arrow to order the data ascending or descending. Type any criteria in the search box to filter the data (e.g. a year, a committee code or a keyword).

Standards | CODEXALIMENTARIUS FAO-WHO  
Dried fruit is fruit from which the majority of the original water content has been removed either naturally, through sun drying, or through the use of specialized dryers or dehydrators. Dried fruit has a long tradition of use dating back to the fourth millennium BC in Mesopotamia, and is prized because of its sweet taste, nutritive value, and long shelf life. Today, dried fruit consumption is widespread. Nearly half of the dried fruits sold are raisins, followed by dates, prunes, figs, apricots
