...

Acclaimed authors Bodie and Merton offer an approach balanced among the three “pillars” of finance—optimization over time, asset valuation, and risk management. The book encompasses all subfields of finance within a single unifying conceptual framework, and offers the “big picture” of resource allocation over time under conditions of uncertainty.

Synopsis: With Bodie/Merton FINANCE, the introductory course becomes the gateway to understanding finance as a scientific discipline based on a set of general principles with a wide range of application. As symbolized by its cover, the text organizes the principles of finance into three analytical "pillars" - optimization over time, asset valuation, and risk management.
