Nisha falls in love with God in the college canteen when she is an impressionable teenager and he a ragged, streetwise student. God's driving ambition leads him into journalism while Nisha lands a job in advertising. Sycophants, whores, fixers, pretty boys and party girls drift in and out of their lives as their careers take off with dizzying speed and then, as abruptly, everything goes terribly wrong . . .

A sequel to Impulse returns readers to the world of Jumper and follows the experiences of a teen girl whose teleporting abilities subject her to the illicit agendas of corrupt and violent factions.

Some people court with flowers and chocolates. Not Jack DePaul, features editor of the Baltimore Star-News.

The Complete Fire Inspector I and II Training Solution! Fire inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. Fire Inspector: Principles and Practice is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you Fire Inspector: Principles and Practice, a modern integrated teaching and learning system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.

This biographical study illuminates the important yet misunderstood figure of Barbara McClintock, the Nobel Prize winning geneticist. Comfort replaces the myth with a new story, rich with new understandings of women in science.

This detailed diary offers an insight into the day-to-day mechanics of military life during the Regency period. Thomas Wildman was a wealthy young captain with the Hussars Brigade, whose outfit was sent to join Wellington's Peninsular campaign late in 1813.

Usonia, New York is the story of a group of idealistic men and women who, following WWII, enlisted Frank Lloyd Wright to design and help them build a cooperative utopian community near Pleasantville, NY. Through both historic memorabilia and contemporary color photos, this book reveals the still-thriving community based on concepts Wright advocated in his Broadacre City proposals. Over the years, thousands of architects, scholars, planners, and students have visited the community, but no book has yet appeared on this remarkable site. Reisley, one of the original members of Usonia (and still a resident), has written the first full account to illuminate the events, problems, and passions of a democratic group of people developing a designed environment an hour from New York City and the ups and downs of working with America's most famous -and most famously volatile-architect.

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In Hollywood Highbrow, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.
