Psychosis or Spiritual Awakening: Phil Borges at TEDxUMKCMadness In International Relations Psychology

Madness in International Relations provides an important and innovative account of the role of psychology and psychiatry in global politics, showing how mental health governance has become a means of securing various populations, often with questionable effects. Through the analysis of three key case studies Howell illustrates how such therapeutic interventions can at times be coercive and sovereign, at other times disciplinary, and at still other times benevolent, though not benign.
