It is intended to build a flow of ideas and concepts so that participants can arrive at new ideas and concepts and work them in their own way, adapting them to their objectives and research. D_Tex is intended as a space for sharing and building knowledge around textile material in order to propose new understandings and explorations. Present in all areas of knowledge, the textile material bets on renewed social readings and its evolutions to constantly reinvent itself and enable innovative cultural and aesthetic dimensions and unexpected applications to solve questions and promote new knowledge. D_Tex proposes to promote discussion and knowledge in the different areas where textiles, with all their characteristics, can ensure an important contribution, combining material and immaterial knowledge, innovative and traditional techniques, technological and innovative materials and methods, but also new organization and service models, different concepts and views on teaching. With the renewed idea of the intrinsic interdisciplinarity of design and sharing with different areas that support each other, the research and practice of textiles was proposed by the D_TEX Textile Design Conference 2019, held June
