Dt Engine Problems

The International MaxxForce DT diesel engine uses high pressure oil that hydraulically actuates the injectors after receiving an electronic signal from the engine control module. This is very basic but those two things caused a problem with the engine in the video. The driver called in said he had no power and needed a spare.

power loss is caused by the EGR being stuck open. It's serviceable and can be cleaned up on the housing and shaft so it moves freely again. The new valve is reasonably cheap with no core charge..

International MaxxForce DT EGR Valve Trouble | Mechanics Hub

We have 13 maxxForce dt engines 2010 and 2012. Four cam failures, one destroyed the engine. We replaced the cams in the other three. The bus that we lost the engine in was one year off of warranty @150,000 km. International said they would replace the engine for \$43,000. I checked with an IC bus salesman, this bus with a good engine was worth \$36,000.

Maxxforce DT troubles - School Bus Fleet Magazine Forums

We have 10 MaxxForce DT engines in our fleet and 3 of them needed inframes because #6 had zero compression caused by the leaking EGR cooler contaminating the engine oil and obviously washing down the oil on the cylinder sleeve but why just #6? This was the exact same failure on all 3 engines.

Actually, the 11L and 13L maxxforce engines were Mann Diesels with Navistar emissions technology killing them (advanced egr over scr). The 15L at this same time was a C15 with the same Navistar bull on it. These engines almost put International out of business, they had to go crawling back to Cummins for safety.

How Navistar solved its EGR problems - Truck News Problems with components such as EGR valves, EGR coolers, EGR inlet tubes, EGR sensors, and defective ECM modules were being experienced by trucking companies throughout the United States. Not surprisingly, Navistar's International trucks and MaxxForce engines experienced numerous recalls and dozens of service bulletins during this time including to the EGR system.

Maxxforce engine problems - low oil pressure code spn 8492 ...

Hello, the maxxforce uses in cylinder dosing to supply extra fuel to regen, their is no seventh fuel injector, engine sputter crazy and start to smoke a lot ones I step on gas, it doesn't matter how much gas I give it, it sputter all the way up to redline, but ones its on drive it will clear and stop sputtering, no problems under load. if its sucking air into fuel system why it drives realy good?

I'm working on a 2010 durastar maxxforce dt, the problem ...

In 2010 the DT engines were updated once again for compliance with 2010 emissions standards. They all received new, twin turbochargers, with higher-rated versions of the MaxxFORCE DT and all MaxxFORCE 9 and 10 engines receiving intercooling and aftercooling.

Navistar DT engine - Wikipedia

I am not to familiar with the Maxxforce engines but on the 2004 DT466EGR engines we found that excessive smoke can be caused by dirty (clogged) Manifold Air Temperature (MAT) sensors in the intake manifold. If the air temp sensor get an incorrect reading it can lead to over fueling causing black smoke.
