Get Free Open Text User Manual destination user's account and will be noted in the history of the fax. 1. Click on the Forward to User button on the toolbar. You can select the user, group or application to forward a copy of the fax and Add them to the Destination Users section. 2. Click OK to send a copy of the fax to one or multiple recipients. 3.

SICStus Prolog is the de-facto standard industrial Prolog programming environment. With more than 25 years in fielded applications, it has a proven track record of a robust, scalable and efficient system. It is widely used for commercial applications as well as in research and education. This book edition contains the core reference documentation of SICStus Prolog release 4.3.0. SICStus Prolog complies with the ISO Prolog standard, IPv4, IPv6, and Unicode 5.0. It is interoperable with C, C++, .NET, Java, Tcl/Tk, Berkeley DB, ODBC, XML, MiniZinc, and more. It ships with a comprehensive library of modules for abstract data types, program development, operating system and file system access, processes, sockets, constraint solvers, and more. SICStus Prolog compiles to a virtual machine (WAM), emulated by efficient C code and compiled just-in-time to native code for x86-based platforms. Tools provide deployment to stand-alone, all-in-one-file, and embedded applications. The Eclipse-based development environment SPIDER provides semantics-aware editing support, static analysis tools, source-linked debugging, tracking variable bindings, profiling, code coverage, backtraces, call hierarchies, and more.

The interRAI HC Assessment System has been designed to be a user-friendly, reliable, person-centered system that informs and guides comprehensive planning of care and services for elderly and disabled persons in community-based settings around the world. It focuses on the person's functioning and quality of life by assessing needs, strengths, and preferences. It also facilitates referrals when appropriate. When used on multiple occasions, it provides the basis for an outcome-based assessment of the person's response to care or services. The interRAI HC Assessment System can be used to assess persons with chronic needs for care, as well as with post-acute care needs (e.g., after hospitalization or in a hospital-at-home situation).
