For example, Dimensions Math 1A and 1B cover Grade 1. 1A is the material for the first half of the year. 1B is the material for the second half of the year. To be clear about how to use these placement tests, here is an example : If a student successfully completes 2A, then they have likely mastered the material in 2A, and should take the 2B ...

This is part B of the 5A/5B set, which goes further with decimals, triangles, starts percentages, and geometry. If you haven't taken a look at the Singapore method of math teaching, you owe yourself and your child to do so. Even if they don't teach this method in your child's school, your child will benefit enormously from this teaching method.
