It's a rare graphic designer who hasn't contemplated setting up his or her own studio. It's part of a designer's DNA to want to own and run a studio. Many do, while others spend a lifetime wondering if they should. But where does the ambitious designer go for advice and guidance? Who better than the founders of some of the best design studios in the world? Tony Brook and Adrian Shaughnessy conduct penetrating interviews with a group of visionary graphic designers who have formed and run landmark international design studios. In a series of candid and revealing interviews, many of the leading figures in contemporary graphic design reveal the secrets behind creating a vibrant studio culture.

A behind-the-scenes account of life at Ealing Studios – one of the great cinematic success stories of post-war Britain, and a byword for a particular strain of comic filmmaking that continues to inspire imitators over half a century on. This will be the first full narrative history of the studio, focusing on its output in the 1940s and '50s, when the movies made there were in astonishing (and revealing) synchronicity with the national mood. Told through the memories of the people who worked and performed there, *The Secret Life of Ealing Studios* will explore how a small group of maverick filmmakers, some of Britain's most fondly remembered movie stars, and a lot of unsung backroom boys and girls created pictures that presented a unique and enduring view of British identity, and which have since become classics. Particular emphasis will be placed on the filming of *Hue and Cry* (1947), *Passport to Pimlico* (1949), *Kind Hearts and Coronets* (1949), *Whisky Galore* (1949), *The Lavender Hill Mob* (1951), *The Man in the White Suit* (1951) and *The Ladykillers* (1955), along with war films such as *The Cruel Sea* (1953). At the heart of the story will be the figure of Michael Balcon – perhaps the closest Britain has ever come to producing a movie mogul in the Hollywood mould – and iconic actors such as Peter Sellers, Alec Guinness, Margaret Rutherford and Sid James. The author is one of Britain's leading entertainment biographers and has a number of successful and critically lauded titles under his belt (his recent book on Oliver Reed, *What Fresh Lunacy Is This?*, was selected for Books of the Year round-ups in both the *Sunday Times* and *Mail on Sunday*). Robert has a track record of securing original testimony from first-hand witnesses and has already begun interviewing people who worked at Ealing.

In the tradition of *Fast Food Nation* and *The Omnivore's Dilemma*, an extraordinary investigation into the human lives at the heart of the American grocery store. What does it take to run the American supermarket? How do products get to shelves? Who sets the price? And who suffers the consequences of increased convenience and efficiency? In this alarming exposé, author Benjamin Lorr pulls back the curtain on this highly secretive industry. Combining deep sourcing, immersive reporting, and compulsively readable prose, Lorr leads a wild investigation in which we learn: • The secrets of Trader Joe's success from Trader Joe himself • Why truckers call their job "sharecropping on wheels" • What it takes for a product to earn certification labels like "organic" and "fair trade" • The struggles entrepreneurs face as they fight for shelf space, including essential tips, tricks, and traps for any new food business • The truth behind the alarming slave trade in the shrimp industry The result is a page-turning portrait of an industry in flux, filled with the passion, ingenuity, and exploitation required to make this everyday miracle continue to function. The product of five years of research and hundreds of interviews across every level of the industry, *The Secret Life of Groceries* delivers powerful social commentary on the inherently American quest for more and the social costs therein.

A psychologist looks at the phenomenon of people who are living secret lives, drawing on the latest psychological research to explore how and why individuals create and nurture alter egos, and discusses the potential benefits and serious psychological risks of assuming a different identity. “Far from growing up in the wealthy, fox-hunting circles she had always suggested, her mother had in fact been raised in a foundling hospital for the children of unwed women.” — Editor’s Choice, The New York Times Book Review “Extraordinary ... fascinating, moving.” —The Telegraph “This emotional and transatlantic journey is a page-turner.” — Editor’s Pick, Amazon Book Review “Book groups will find as much to discuss here as they have with *The Glass Castle* by Jeannette Walls, and *Educated* by Tara Westover.” — BookList Recommended by The New York Times, The Saturday Evening Post, Amazon Book Review, The Atlanta Journal Constitution, Publisher’s Weekly, Kirkus and more, Justine Cowan’s remarkable true story of how she uncovered her mother’s upbringing as a foundling at London’s Hospital for the Maintenance and Education of Exposed and Deserted Young Children has received acclaim on both sides of the Atlantic. In the U.K., it has been featured in The Mail on Sunday, The Daily Mail, The Daily Mirror and The Spectator. The Telegraph calls it “extraordinary and Glamour magazine chose it as the best new book based on real life. The story begins when Justine found her often volatile mother in an unlit room writing a name over and over again, one that she had never heard before and would not hear again for many years – Dorothy Soames. Thirty years later, overcome with grief following her mother’s death, Justine found herself drawn back to the past, uncovering a mystery that stretched back to the early years of World War II and beyond, into the dark corridors of the Hospital for the Maintenance and Education of Exposed and Deserted Young Children. Established in the eighteenth century to raise “bastard” children to clean chamber pots for England’s ruling class, the institution was tied to some of history’s most influential figures and events. From its role in the development of solitary confinement and human medical experimentation to the creation of the British Museum and the Royal Academy of Arts, its impact on Western culture continues to reverberate. It is the reason we read Dickens’ *Oliver Twist* and enjoy Handel’s *Messiah* each Christmas. It was also the environment that shaped a young girl known as Dorothy Soames, who bravely withstood years of physical and emotional abuse at the hands of a sadistic headmistress—a resilient child whose only hope would be a daring escape as German bombers rained death from the skies. Heartbreaking, surprising, and unforgettable, *The Secret Life of Dorothy Soames* is the true story of one woman’s quest to understand the secrets that had poisoned her mother’s mind, and her startling discovery that her family’s fate had been sealed centuries before.

The most outrageous and exuberant lingerie in the world comes from a place youd probably never expect: Syria. Adorned with everything from faux fur, artificial flowers, and feathered birds to plastic toy cell phones, these intimates flash lights, play music, even vibrate. Well known across the Middle East in Syria the lingerie forms an important part of the folk tradition around trousseaus and weddings it is openly displayed in the markets and souks. Authors Malu Halasa and Rana Salam have brought together a diverse and dramatic collection of photography and writing, including the voices of Syrian women, celebrating this little-known niche of fashion design in all its playful glory.

Welcome to the mind—to the world—of Fake Steve Jobs. Fake Steve the counterintuitive management guru: “Obviously we can’t literally put our employees’ lives at risk. But we have to make them feel that way.” Fake Steve the celebrity hobnobber: “I like Bono. He’s the only person I know who’s more self-absorbed than I am.” Options is the book that had the critics howling—with laughter: “A voice for our own digital age...Mac-slappingly funny.”—Newsweek.com “Hilarious.”—New York Times “There’s a laugh-out-loud moment on nearly each one of the book’s pages.”—Wall Street Journal “Wickedly funny.”—San Francisco Chronicle

A New York Times Bestseller For almost a century, Americans have been losing their hearts and losing their minds in an insatiable love affair with the American musical. It often begins in childhood in a darkened theater, grows into something more serious for high school actors, and reaches its passionate zenith when it comes time for love, marriage, and children, who will start the cycle all over again. Americans love musicals. Americans invented musicals. Americans perfected musicals. But what, exactly, is a musical? In *The Secret Life of the American Musical*, Jack Viertel takes them apart, puts them back together, sings their praises, marvels at their unflagging inventiveness, and occasionally despairs over their more embarrassing shortcomings. In the process, he invites us to fall in love all over again by showing us how musicals happen, what makes them work, how they captivate audiences, and how one landmark show leads to the next—by design or by accident, by emulation or by rebellion—from *Oklahoma!* to *Hamilton* and onward. Structured like a musical, *The Secret Life of the American Musical* begins with an overture and concludes with a curtain call, with stops in between for “I Want” songs, “conditional” love songs, production numbers, star turns, and finales. The ultimate insider, Viertel has spent three decades on Broadway, working on dozens of shows old and new as a conceiver, producer, dramaturg, and general creative force; he has his own unique way of looking at the process and at the people who collaborate to make musicals a reality. He shows us patterns in the architecture of classic shows and charts the inevitable evolution that has taken place in musical theater as America itself has evolved socially and politically. *The Secret Life of the American Musical* makes you feel as though you’ve been there in the rehearsal room, in the front row of the theater, and in the working offices of theater owners and producers as they pursue their own love affair with that rare and elusive beast—the Broadway hit.

One of USA Today's “100 Books to Read While Stuck at Home During the Coronavirus Crisis” A dazzling gift, the unforgettable, unknown history of colors and the vivid stories behind them in a beautiful multi-colored volume. “Beautifully written . . . Full of anecdotes and fascinating research, this elegant compendium has all the answers.” —NPR, Best Books of 2017 *The Secret Lives of Color* tells the unusual stories of seventy-five fascinating shades, dyes, and hues. From blonde to ginger, the brown that changed the way battles were fought to the white that protected against the plague, Picasso’s blue period to the charcoal on the cave walls at Lascaux, acid yellow to kelly green, and from scarlet women to imperial purple, these surprising stories run like a bright thread throughout history. In this book, Kassia St. Clair has turned her lifelong obsession with colors and where they come from (whether Van Gogh’s chrome yellow sunflowers or punk’s fluorescent pink) into a unique study of human civilization. Across fashion and politics, art and war, the secret lives of color tell the vivid story of our culture. “This passionate and majestic compendium will leave you bathed in the gorgeous optics of light.” —Elle
