This book is the first in this series of Norwegian migrations to the United States. This book will cover the first migration to America through Iceland and Greenland; the next one will cover the migration to America through Holland, England, and Normandy. Finally, the third book will cover the last migration to America, when half of the Norwegian population left for the new world.

You'll get the inside scoop on their naming methods, plus the stories behind the names of their most famous characters. So throw out your old telephone books and baby-naming guides—The Writer's Digest Character Naming Sourcebook meets all your naming needs!

Written around 1245 by an unknown author, the Laxdaela Saga is an extraordinary tale of conflicting kinships and passionate love, and one of the most compelling works of Icelandic literature. Covering 150 years in the lives of the inhabitants of the community of Laxriverdale, the saga focuses primarily upon the story of Gudrun Osvif's daughter: a proud, beautiful, vain and desirable figure, who is forced into an unhappy marriage and destroys the only man she has truly loved — her husband's best friend. A moving tale of murder and sacrifice, romance and regret, the Laxdaela Saga is also a fascinating insight into an era of radical change — a time when the Age of Chivalry was at its fullest flower in continental Europe, and the Christian faith was making its impact felt upon the Viking world.

Iceland was the last country in Europe to become inhabited, and we know more about the beginnings and early history of Icelandic society than we do of any other in the Old World. This world was vividly recounted in The Book of Settlements, first compiled by the first Icelandic historians in the thirteenth century. It describes in detail individuals and daily life during the Icelandic Age of Settlement.

Working from the Poetic Edda, the Prose Edda, and Old Norse prose narratives and laws, Jenny Jochens argues for an underlying cultural continuum of a pagan pantheon and a set of heroic figures shared by the Germanic tribes in Europe, Britain, Scandinavia, and Iceland from A.D. 500 to 1500. Old Norse Images of Women explores the female half of this legacy, which involves images both divine and human. In a society marked by sharp gender divisions, women were frequently portrayed as one of four conventional types. The warrior woman was exemplified by the valkyrie, sheildmaiden, or maiden king. The wise woman was a prophethess or sorceress. The avenger is best seen in Gudrun, whose focus of revenge shifted from husband to brothers. Last, there were the whetters or inciters, who appear both in the Continental setting as Brynhildr and as ubiquitous figures in medieval Icelandic literature, ranging from Norwegian queens to humble milkmaids.
