Yahoo Products; Promoted. sicoll007. Lv 4. sicoll007 asked in Science & Mathematics Physics · 1 decade ago. Sound waves? What causes the peaks to stop peaking, and the troughs to end their trough? Do they act exactly like water (which must be subject to different forces than sound)? Answer Save.

Sound waves? | Yahoo Answers

Sound is a wave and as such there is an equation relating wave length (L), period (or frequency "f") and velocity of the wave (v). You have provided frequency (732 Hz) and velocity (345 m/s). The...

Physics question - sound waves? | Yahoo Answers

Sound obeys superposition principle. When two waves of same frequency, same wavelength, equal amplitude, travelling with same speed arrive at a point in opposite phase, (the resultant

File Type PDF What Are Sound Waves Yahoo Answers

amplitude) resultant intensity is zero. The resultant intensity is maximum when the two waves arrive in same phase. This is observed in INTERFERENCE OF SOUND.

sound waves....? | Yahoo Answers

What sound is is a longitudinal compressional wave. It compresses and decompresses matter in the direction that it is moving. In addition, there are transverse waves associated with sound...

are seismic waves sound waves? | Yahoo Answers

two speakers, A and B, produce identical sound waves. a listener is 3.20 m from speaker A. the listener finds the lowest frequency that creates destructive interference at his location is 72.4 Hz. how far away is he from speaker B?(Unit=m)

Interference of sound waves sound? | Yahoo Answers

A sound wave is a mechanical wave. When the wave reaches an object, it applies a force to it and causes it to vibrate. Think of wind blowing on the curtains, its the same principle.

sound waves carry energy? | Yahoo Answers

Sound Waves uses synthetic phonics to explicitly and systematically teach students how sounds (phonemes) are represented by letter/s (graphemes) to form written words. Instruction is intentionally pre-planned so that students progress from learning simple, broadly applicable phoneme-grapheme relationships to those that are more complex and unusual.
